About Nucleate Cultivate

Nucleate Cultivate is dedicated to enabling the next-generation of graduate and undergraduate food and ag tech pioneers. Previously known as Cultivate Tomorrow, we are the first US-based student organization to create a hackathon regarding the challenges of the current cellular agriculture and precision fermentation landscape.

It all starts with the right team—a team that deeply cares about values, our community, and each other. We aim to change the future of cellular/acellular agriculture education forever.

As our Social Chair, you will play a crucial role in fostering a sense of community and connection among the Nucleate Cultivate team by organizing fun events and activities for the team.

This role would be approximately 5-8 hours per week.
